

VIP3050 Quick Set-Up Guide

1. Open the rubber flap on the end of the tracker and charge the battery with the USB cable supplied for about 8 - 10 hours, when fully charged the RED light will flash. Remove the top cover by gently prising with a screw driver. Activate the SIM card we supplied with CMobile on phone 1300 545 000 then insert the SIM card in the slot of the tracker with the contact side DOWN, take note of the position of the cut corner. Refit the top cover taking note of the position of the lights. To turn ON the tracker open the rubber flap on the end and push the small button next the charging port. All set up commands are done by sending a SMS to the tracker phone number. In order for the tracker to pick up the satellite and phone signals it is best to have the tracker outside.

2. Set your mobile phone number by sending a SMS to the tracker: **admin123456 XXXXXXXXXX**
Substitute XXXXXXXXXX with your mobile phone number and ensure there is a space between the password and the phone number. You will receive a reply 'admin ok'

3. Set the Access Point Name (APN) by sending a SMS from your mobile phone to the tracker phone number: **apn123456 vfinetnet.au** for Vodafone and **apn123456 mdata.net.au** for Telstra, make sure there is a space between the password and the APN. You will receive a sms back 'apn ok'

4. Then download the phone app by scanning the QR Code 'LKGPS' on www.lkgps.net or searching 'LKGPS' & download from the app store.

5. Open the app on your phone and click on the tab 'log in by IMEI/ID' bottom right of the app, then enter the 'server name' **www.lkgps.net** the 'IMEI/ID' is the 10 digit ID Number on the tracker and the 'password' **123456** then log in.

6. In order to log in on the app easily & quickly in the future you can change the 'IMEI/ID' to your vehicles registration number.

- Log in on the app & click on 'Device Info'
- Top right hand corner click on 'write' icon
- Change the 'Device name' to your registration number or vehicle name.
- Change 'License plate number' to your registration number.
- Then confirm by clicking on the 'save' icon on top right of screen.

Now in the future you can log in by using your registration number as the 'IMEI/ID'.

To Locate Your Vehicle

Open the app on your phone or www.lkgps.net on your computer enter your 'Username/IMEI/ID' and password' then click on 'Real Time Tracking'
